

EVERYTHING TASTES **BETTER** IN **CHUK**

Food-safe disposables that serve,
deliver, and make every bite happier.

A Pakka Offering

A woman in a white uniform is holding a stack of white Chuk containers. The containers are filled with various types of food, including what appears to be a burger, a salad, and a bowl of food. The background is a blurred image of a restaurant or food service area.

Your food deserves more than just any disposable — it deserves a Chuk. A plate or bowl that can handle your spicy curry, dripping paneer tikka masala, or extra cheesy pizza without collapsing, leaking, or affecting the food's aroma and flavor. A container that makes sure your food shows up exactly as it left the kitchen. From cheesy burgers to healthy salads, from cloud kitchens to national QSR chains, Chuk serves up food-safe, compostable disposables designed for the way India actually eats — hot, saucy, messy, and delicious.

TIME TO MEET THE HEROES THAT MAKE IT HAPPEN...

Your food's new BFFs—ready to carry, protect, and flex just the right amount.

WORRY-FREE DELIVERIES

With **first-of-kind tamper-proof** container you can fill, seal and send food to your customers with confidence. Glue-lock lids keep orders packed as intended, whether it's biryani, gravies, or desserts heading out for delivery.

Build customer trust

Reduce disputes

Cleaner, plastic-free experience

Enhance brand reputation
